The Private Securities Litigation Reform Act of 1995 (the "Act") provides protection from liability in private lawsuits for "forward-looking" statements made by public companies under certain circumstances, provided that the public company discloses with specificity the risk factors that may impact its future results. We want to take advantage of the "safe harbor" provisions of the Act. Certain statements made during this presentation are forward-looking statements under the Act. Except for historical financial and business performance information, statements made during this presentation should be considered forward-looking as referred to in the Act. Much of the information that looks towards future performance of our company is based on various factors and important assumptions about future events that may or may not actually come true. As a result, our operations and financial results in the future could differ materially and substantially from those we have discussed in the forward-looking statements made during this presentation. Certain risks and uncertainties are detailed from time to time in our filings with the SEC. You are strongly urged to review all such filings for a more detailed discussion of such risks and uncertainties. During portions of today's presentation, we may refer to results which are not GAAP numbers. EBIT Growth Driven by Strategic and Restructuring Initiatives

- Improved gross profit rate through margin initiatives including pricing & promotions
 - Offset deleveraging impact from sales decline due to challenging economic environment
- Reduced overhead and supply chain expenses, and centralized operations
- Exited non-strategic businesses and reduced International costs
- Closed underperforming retail stores; sold and leased back assets
- Eliminated redundancy in IT equipment and services
- Reduced costs through business process improvement initiatives

Expect adjusted EBIT⁽²⁾ growth of approximately \$200 million through 2013

(1) For purposes of comparability, gross profit and gross profit percentages for the years 2007, 2008, and 2009 have been adjusted retrospectively to include shipping and handling expenses in accordance with the Q1 2013 change in accounting principle of presenting such expenses. Gross profit for the years 2007, 2008, 2009, 2010, 2011 and 2012 include shipping and handling expenses amounting to \$1.0 billion, \$0.9 billion, \$0.8 billion, \$0.7 billion, \$0.7 billion, and \$0.7 billion, respectively.

(2) Adjusted EBIT excludes charges for restructuring actions and activities to improve future operating performance. Neither historic performance or 2013 projections have been adjusted for the pending sale of Office Depot de Mexico. The measure is presented to provide management and investors an opportunity to make meaningful assessments and comparisons of results from total operations, charges related to restructuring and efficiency-related actions, and the results after isolating those charges. The presentation of such non-GAAP information is not intended to suggest that such information is superior to the presentation of GAAP information, but only to clarify some information and assist the reader. A reconciliation of GAAP to non-GAAP numbers can be found on the Office Depot web site at www.officedepot.com.

Enhanced Cash Flow and Strong Liquidity Position

Positive Free Cash Flow⁽¹⁾ since 2008 through successful working capital management

Sustained liquidity above \$1.3 billion since 2009 with no current ABL borrowings

(1) Free Cash Flow is a non-GAAP financial measure, and equals net cash provided by operating activities less capital expenditures. The measure is presented to provide management and investors an opportunity to make meaningful assessments and comparisons of financial results. The presentation of such non-GAAP information is not intended to suggest that such information is superior to the presentation of GAAP information, but only to clarify some information and assist the reader. A reconciliation of GAAP to non-GAAP numbers can be found on the Office Depot web site at www.officedepot.com.

(2) 2012 free cash flow of \$117 million has been adjusted to exclude a \$58 million negative impact related to a first quarter pension settlement. The settlement impact on cash flow from operating activities was offset by a positive impact to cash flow from investing activities of the same amount, with the net result of having no total cash flow impact on Office Depot.
