Compensation Discussion and Analysis

Overview of 2016 Named Executive Officers

This compensation discussion and analysis (the “CD&A”) describes our executive compensation programs and explains how the Compensation Committee made its compensation decisions for our named executive officers (also referred to in this CD&A as “NEOs”) for fiscal year 2016. The company has experienced several executive officer transitions during 2016 and early 2017 in connection with the implementation of the company’s three-year strategic plan following termination of the proposed merger with Staples, Inc., including the following:

- Roland Smith, former Chairman of the Board and Chief Executive Officer, retired from the company effective February 27, 2017.
- Gerry P. Smith was appointed to serve as Chief Executive Officer and a director of the company effective February 27, 2017.
- Juliet Johansson, former Executive Vice President and Chief Strategy and Innovation Officer, left the company as part of the company’s restructuring tied to its three-year strategic plan, effective January 26, 2017.
- Mark Cosby, former President, North America, also left the company as part of the company’s restructuring, effective November 18, 2016.
- Steven Schmidt, former Executive Vice President and President, International, separated from the company effective May 27, 2016.

The list of executives deemed to be serving as our NEOs for 2016 are:

- Former Chairman and Chief Executive Officer (“CEO”), Roland C. Smith;
- Executive Vice President and Chief Financial Officer, Stephen Hare;
- Executive Vice President and Chief Operating Officer, North America, Troy Rice;
- Executive Vice President and Chief Administrative Officer, Michael Allison, who served as Executive Vice President and Chief People Officer during 2016 and until March 12, 2017;
- Former Executive Vice President and Chief Strategy and Innovation Officer, Juliet Johansson;
- Former President, North America, Mark Cosby; and
- Former Executive Vice President and President, International, Steven Schmidt.

Overview of 2016 Key Events and NEO Compensation

- **Merger Agreement with Staples, Inc. and FTC Review Process:** The merger agreement between Staples, Inc. and the company discussed in last year’s CD&A was terminated on May 16, 2016, following a lengthy review process with the Federal Trade Commission (“FTC”), which started in February 2015 and ultimately ended in May 2016. During the review process, the FTC issued a preliminary injunction against the planned merger, which was followed by an appeal by both companies to the United States District Court for the District of Columbia, which ultimately granted the FTC’s request for the preliminary injunction. Following the blocked merger, the company made several changes to the constituency of its leadership team, including the NEOs, and related executive compensation during 2016.
- **Separation of Mr. Schmidt, President, International:** As part of the decision to move the President, International role permanently to Europe and sell the company’s European business following the blocked merger with Staples, Mr. Schmidt, the President, International at the time, left the company on May 27, 2016. Mr. Schmidt was eligible for a severance payment in connection with his termination. Mr. Schmidt previously vested in a lump sum cash payment on March 15, 2016, in the amount of \$1 million that he was entitled to receive under the terms of his 2015

retention agreement. The retention agreement had been awarded to encourage Mr. Schmidt to delay his separation and remain with the company while the merger with Staples was pending and until a final determination on the future of the international businesses could be made. The sale of the company's European business was completed on December 31, 2016. Further information on Mr. Schmidt's retention and severance payments are provided in the "Retention and Termination Payments to Mr. Schmidt" section below in this CD&A.

- **Separation of Mr. Roland Smith, Chairman of the Board and Chief Executive Officer:** Mr. Roland Smith originally accepted a three-year contract with the company at the time we had just completed our merger with OfficeMax in November 2013. Mr. Roland Smith's primary focus upon assuming the CEO position was to build, lead, and retain a talented management team that would successfully integrate the company with OfficeMax and maximize the available synergies and efficiencies. Following the termination of the merger agreement with Staples, Mr. Roland Smith worked closely with the Board to develop a clear and compelling three-year strategic plan to position the company for profitable growth. The company then announced on August 22, 2016 that Mr. Roland Smith would retire as CEO of the company, but he would continue to serve as CEO until a successor was named, which was expected by the end of first quarter 2017. The Board and Mr. Roland Smith entered into an amendment to his employment agreement on August 21, 2016 to address the extension of his contract to ensure sufficient time was provided to the Board to complete an orderly transition to a new CEO. Further information on the amendment is provided in the "Amendment to Mr. Roland Smith's Employment Agreement" section of this CD&A. Mr. Roland Smith remained employed with the company at the end of 2016, and the integration of the company and OfficeMax was substantially complete with Mr. Roland Smith and his team delivering synergies and efficiencies that significantly exceeded expectations at the beginning of the three-year integration period. Mr. Roland Smith left the company on February 27, 2017 upon the arrival of the new CEO, Mr. Gerry Smith.
- **Promotion of Mr. Rice to Executive Vice President and Chief Operating Officer, North America:** The company also announced on August 22, 2016 that we were reorganizing our Executive Committee to better align with the three-year strategic plan we unveiled earlier in August. As part of that plan, we consolidated our Retail, Contracts, Ecommerce and Marketing operations to better serve our customers in today's omni-channel marketplace; and these functions were moved to Mr. Rice, who was named to the newly-created position of Executive Vice President and Chief Operating Officer, North America. Mr. Rice formerly served as the company's Executive Vice President, Retail, where he successfully led the integration of the Office Depot and OfficeMax store operations, drove same store sales improvements, and significantly grew operating profit.
- **Separation of Mr. Cosby, President, North America:** As part of the CEO selection/transition process, the Board consolidated the CEO and President, North America roles, which resulted in the departure of Mr. Cosby, who was the President, North America at the time, on November 18, 2016. Further information on Mr. Cosby's eligibility for payments following termination is provided in the "Payments Following Termination to Mr. Cosby" section of this CD&A.
- **Hiring of Mr. Gerry Smith, Chief Executive Officer in February 2017:** Mr. Gerry Smith was hired on February 27, 2017. The key provisions of his employment agreement include the following:
 - **Base Salary:** \$1,100,000;
 - **Bonus Target:** 150%;
 - **2017 Long-Term Incentive Program:** Stock units with an aggregate grant date fair value of \$6,000,000 at target to be awarded at the same time and under the same terms as other eligible participants in the 2017 long-term incentive program. The grant was awarded on March 6, 2017 and was comprised of 50% in performance-based stock units cliff vesting three years after the grant date and 50% in time-based restricted stock units vesting pro-rata on the first three anniversaries of the grant date;
 - **Sign on Bonus:** \$1,200,000 in cash payable following his date of hire to compensate for the 2016 annual bonus he was forfeiting from his prior employer; and
 - **Sign on Equity Grants:**
 - Stock options with an aggregate grant date fair value equal to \$3,000,000, which were granted on his date of hire and vesting pro-rata on the first three anniversaries of the grant date; and
 - Time-based restricted stock units having an aggregate grant date fair value of \$4,500,000, which were granted on his date of hire and vesting pro-rata on the first three anniversaries of the grant date to compensate him for equity awards he was forfeiting from his prior employer.
- **2016 Incentive Program Metrics:** The Compensation Committee added new metrics to the company's incentive programs in 2016, including a sales metric under its annual cash bonus plan to focus management on stabilizing

sales and a total shareholder return metric under its long-term incentive program to further link pay for performance to shareholder experience. The Compensation Committee also incorporated “line of sight” tracking in its adjusted operating income metric under the annual cash bonus plan to keep individuals focused on the performance achievement of either the total company or North American segments based on which segment each individual’s role most closely aligned. The 2016 incentive programs’ design continued to include minimum threshold gates, minimum and maximum payouts based on separate performance metrics, and negative discretion by the Compensation Committee to decrease payouts if warranted.

- **Long-Term Incentive Plan Amendments:** The Compensation Committee approved an amendment on October 27, 2016 to the company’s long-term incentive programs for all of the NEOs, excluding Mr. Roland Smith and Mr. Steven Schmidt, which provided a retention incentive for the eligible NEOs to remain employed with the company until the new CEO was hired. The amendment modified the initial vesting provisions of the outstanding equity awards granted in 2013 through 2016 so that each eligible NEO would continue to vest in (and not forfeit) the portion of his/her multi-year equity grants scheduled to vest in 2017 (subject to the continuation of company performance requirements where applicable) if a new CEO made changes to the executive team and terminated the eligible NEO prior to his/her upcoming vesting dates in 2017. Further information is provided in the “Outstanding Long-Term Incentive Programs” section of this CD&A.

The Compensation Committee approved an additional amendment on December 23, 2016 to the company’s long-term incentive programs for Messrs. Hare and Allison that provided a retention incentive for Messrs. Hare and Allison to remain employed with the company through March 31, 2018, allowing the new CEO substantial time to implement transition and succession planning of the Finance and Human Resources functions in the event that Messrs. Hare and Allison transition out of the company. The amendment modified the initial vesting provisions of Messrs. Hare’s and Allison’s equity awards granted in 2016, so they would continue to vest in (and not forfeit subject to the continuation of company performance requirements where applicable) the remainder of such awards following voluntary termination of employment if they remained employed with the company through March 31, 2018. The Compensation Committee also approved that similar vesting provisions would apply to any long-term incentive grants made to Messrs. Hare and Allison in 2017. Further information is provided in the “Outstanding Long-Term Incentive Programs” section of this CD&A.

The portion of the long-term incentive program implemented in 2016 and tied to performance is based on a three year performance period and two metrics: adjusted operating income over three one-year periods and total shareholder return over

a multiple year period. The first third of the adjusted operating income metric was achieved at 114% based on the 2016 adjusted operating income performance of \$471 million. The total shareholder return performance is not determinable until the end of 2018. Further information is provided in the “2016 Long-Term Incentive Program” section of this CD&A.

What were the results of our advisory vote to approve executive compensation?

At our July 2016 annual shareholder meeting, our shareholders were given the opportunity to cast an advisory vote “for” or “against” the compensation of our NEOs in fiscal 2015. On the advisory “say-on-pay” vote, our stockholders overwhelmingly approved the compensation of our NEOs with approximately 93.9% of the votes cast voted for the company’s executive compensation. The Compensation Committee considers this approval level as a strong validation of our compensation philosophy and program.

What are the elements of our NEO compensation packages?

The various elements of compensation paid by the company are intended to reflect our compensation philosophy and: (i) provide an appropriate level of financial certainty through fixed compensation, (ii) ensure that at least 50% of equity compensation is performance-based, and (iii) create a balance of short-term and long-term incentives.

How do the company's pay practices compare to best practices?

Our 2016 executive compensation program was based on a compensation philosophy adopted by our Compensation Committee and reflected the advice of the Compensation Committee's independent compensation consultant, Frederic W. Cook & Co., Inc. ("FW Cook"). The Compensation Committee considered the independence of FW Cook under applicable SEC and The NASDAQ Stock Market rules, and concluded there was no conflict of interest. The Compensation Committee is guided by the following key principles in determining the compensation structure for our executives:

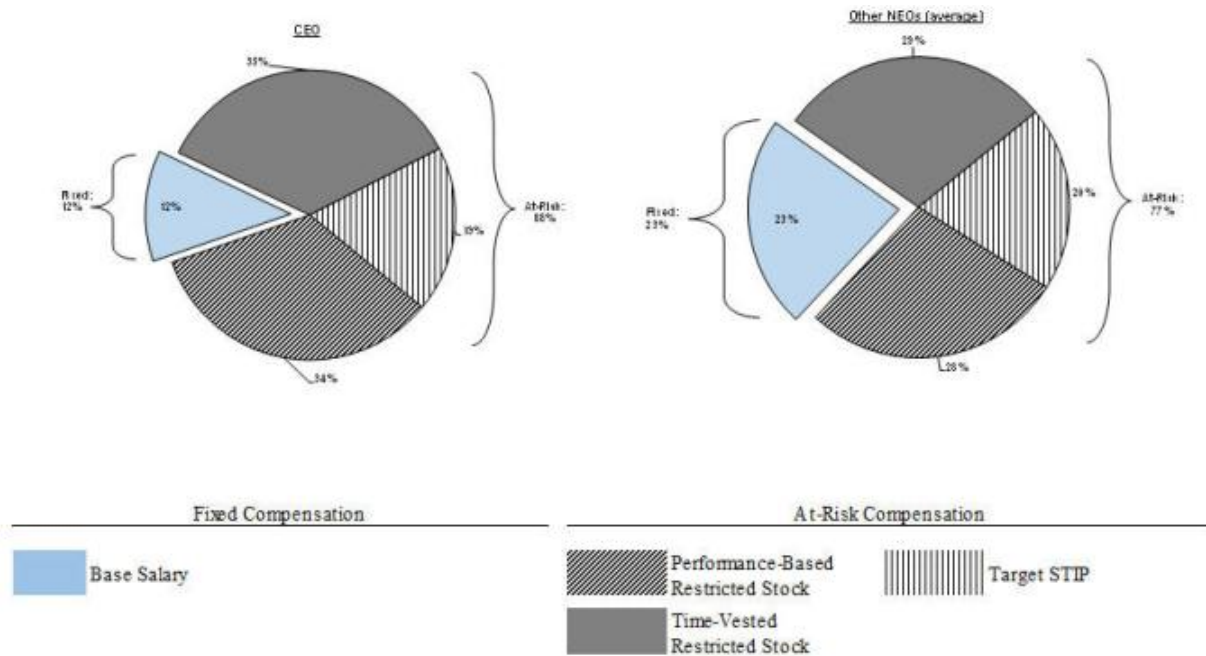

WHAT WE DO	WHAT WE DON'T DO
<ul style="list-style-type: none">✓ <i>Independent compensation consultant</i> — Our Compensation Committee receives advice from an independent compensation consultant, which reports directly to the Compensation Committee and provides no other services to the company.✓ <i>Stock ownership guidelines</i> — To further align the long-term interests of our executives and our stockholders, our board of directors has established robust stock ownership guidelines applicable to our directors, CEO, and other NEOs.✓ <i>Thorough competitive benchmarking</i> — We generally provide target compensation opportunities to our executives in a manner that reflects a competitive marketplace and allows us to attract, retain and motivate talented executives throughout the volatility of business cycles. We endeavor to design the executive compensation packages so that the total target direct compensation falls at or near the median of similarly-situated executives in our peer group (as defined below).✓ <i>Accountability for long-term performance</i> — We establish meaningful incentives in our executives' compensation that create long-term stockholder value while not incentivizing excessive risk-taking. In addition, we grant equity to our executives that vest over multiple years to encourage retention and incentivize the executives to create shareholder value.✓ <i>Pay for performance</i> — We tie compensation to our financial and operating performance so that executives are held accountable through their compensation for achieving our annual operating plan.✓ <i>Annual stockholder "say-on-pay" vote</i> — Because we value our stockholders' input on our executive compensation programs, our Board has chosen to provide stockholders with the opportunity each year to vote to approve, on a non-binding, advisory basis, the compensation of the NEOs as described in our proxy statement.✓ <i>Limit perquisites to NEOs</i> — Our NEOs are provided with limited types of perquisites and other personal benefits that the Compensation Committee feels are reasonable and consistent with our overall compensation philosophy.✓ <i>Recoupment of incentive compensation</i> — If we restate our reported financial results for any period beginning after January 1, 2010, our clawback policy allows our Board to seek to recover or cancel any bonus and other awards made to our executive officers that were based on having met or exceeded performance targets that would not have been met under our restated financial results.	<ul style="list-style-type: none">X <i>No tax gross ups</i> — Other than for taxes for the receipt of relocation benefits, which are generally available to all of our relocated employees, and amounts for costs related to reasonable personal expenses associated with attending company sponsored events, none of our NEOs receive gross-ups for taxes on personal benefits.X <i>No special retirement programs for executive officers</i> — Our executive officers do not participate in any retirement program not generally available to its employees.X <i>No pledging of our stock</i> — Our directors and executive officers are prohibited from pledging the company's stock.X <i>No hedging</i> — Our directors, executive officers and all other employees are prohibited from engaging in hedging transactions that could eliminate or limit the risks and rewards of company stock ownership.X <i>No unapproved trading plans</i> — Our directors and executive officers are prohibited from entering into securities trading plans pursuant to SEC Rule 10b5-1 without the pre-approval of our chief legal officer and/or his designees. Further, directors and executive officers must seek the approval of our chief legal officer and/or his designees prior to trading.X <i>No dividends on equity</i> — We do not pay dividends or dividend equivalents on unearned and unvested performance shares or restricted stock units.X <i>No excessive risk creation</i> — We do not maintain compensation programs that we believe create risks reasonably likely to have a material adverse effect on the company. The company's internal audit function and our independent compensation consultant review and assess the risk in our compensation programs annually and then report their findings to the Compensation Committee and Audit Committee at a joint meeting.X <i>No repricing</i> — We expressly prohibit the repricing of stock options and stock appreciation rights without shareholder approval. We do not allow cash buyouts for underwater stock options or stock appreciation rights.

How does the company’s compensation program support pay-for-performance?

The Compensation Committee annually reviews the total mix of compensation for the company’s NEOs, which includes a significant portion of variable performance-based incentives that are linked to the attainment of critical performance targets and changes in stockholder value. The Compensation Committee believes that each of these elements provides a meaningful reward opportunity to the NEOs, focuses the company’s leadership team on the key drivers of success for the near- and long-term, and therefore supports the company’s short-term and long-term strategic objectives and links realized pay directly to performance.

With respect to our CEO’s compensation, 88% of Mr. Roland Smith’s target compensation was “at risk” in 2016 based on operating performance, relative total shareholder return, and/or changes in stock price while target compensation for our other NEOs in 2016 was 77% “at risk.”

Percentages are derived based upon compensation data as of December 31, 2016. Fifty percent of equity grant is performance-based and 50% is time-based. Percentages reflected above for equity components reflect slight differences resulting from accounting expense methodology used for total shareholder return component of performance-based restricted stock units.

What was the total direct compensation for our NEOs during fiscal 2016?

Base Salaries

The Compensation Committee performed its annual review of executive compensation considering external market data, as well as scope of role, individual performance, and internal equity and then determined to make adjustments to the following NEOs' base salaries during 2016:

- Mr. Cosby received an increase in his base salary from \$850,000 to \$900,000 effective July 31, 2016, for retention purposes until a decision was made on long-term plans for the CEO position,
- Mr. Allison received an increase in his base salary from \$525,000 to \$550,000 effective October 30, 2016, to reflect his assumed responsibility for the Loss Prevention organization, and
- Ms. Johansson received an increase in her base salary from \$475,000 to \$500,000 effective October 30, 2016, to reflect her individual performance working with Mr. Roland Smith and the Board to develop the three-year strategic plan to position the company for profitable growth prior to the planned reorganization of the senior management team.

Additionally, Mr. Rice received an increase in his base salary when he was promoted to Executive Vice President and Chief Operating Officer, North America effective August 21, 2016, from \$500,000 to \$650,000, to reflect the increased scope of his new role.

Neither Mr. Roland Smith nor Mr. Hare have received a salary increase since their date of hire. For the base salaries of all of the NEOs as of December 31, 2016, please refer to the Summary Compensation Table.

2016 Annual Cash Bonus Plan

The Compensation Committee reviewed our 2016 Annual Operating Plan approved by our Board and the key performance measures for our business and decided to modify the bonus metrics from 2015 when designing the company's 2016 bonus plan. Our 2016 Annual Cash Bonus Plan included a threshold funding metric based on earnings before interest, taxes, depreciation and amortization ("EBITDA") and performance metrics of adjusted operating income based on "line of sight" and North America net sales. The Compensation Committee believes that the metrics selected for 2016 were straight forward for the organization to understand, were key to the company's continued stability and growth, and were elements that directly impact shareholder value. Additionally, the 2016 bonus performance metrics were designed to allow for payouts to be determined within the range of threshold and maximum so long as the minimum EBITDA threshold was achieved. The 2016 Annual Cash Bonus Plan payout was capped at 150% of target payout as the Compensation Committee believed this cap was market competitive for short-term incentives. Actual payouts were to be based on the level of achievement of the performance metrics subject to the Compensation Committee's ability to exercise "negative discretion" to decrease payouts if such bonuses were not in its opinion appropriately earned or should not be paid. Further details on each of these components of the 2016 Annual Cash Bonus Plan are described below.

The Compensation Committee approved a threshold EBITDA of \$400 million for the 2016 fiscal year, with EBITDA calculated as follows:

1. Operating Income, plus Asset Impairments, plus Merger Restructuring and Other Operating Expenses, each as reported in the company's Audited Consolidated Statement of Operations for the 2016 fiscal year, plus
2. Depreciation and Amortization, as reported in the company's Audited Consolidated Statement of Cash Flows for the 2016 fiscal year.

Accordingly, if our 2016 EBITDA threshold was not met, no bonus would have been paid under the 2016 Annual Cash Bonus Plan regardless of how we performed on our performance metrics. The EBITDA threshold was also intended to encourage management to continue to focus on reducing expenses and capturing synergies from the Office Depot/OfficeMax merger.

[Table of Contents](#)

In selecting the performance metrics for fiscal 2016, the Compensation Committee took into consideration the company's 2016 Annual Operating Plan, plus the estimated impact of the pending merger with Staples, and chose the maximum performance targets that reflected stretch goals and aligned with our 2016 Annual Operating Plan. The Compensation Committee retained adjusted operating income as the primary performance metric because it focused management on the key short-term drivers of sustainable value creation, including revenue generation, cost reduction, and synergy realization, each of which is critical in driving earnings improvement. The Compensation Committee believes that the adjusted operating income metric directly impacts stockholder value and is easy to communicate to the organization. The Compensation Committee focused on adjusted operating income results at both the total company and the North American level based on each NEO's line of sight and scope of control within the organization.

Also, the FTC review and appeals process had already been ongoing for close to a year and there was a reasonable probability the merger with Staples would ultimately be blocked. Both of these factors combined with the company's expectation of continued industry headwinds and competitive losses highlighted the importance of stabilizing revenues, so the Compensation Committee also added a new metric focusing on North America net sales. North America net sales was defined as the sum of the Sales figures reported in the Segment Information footnote of our 2016 10-K for the North American Retail and North American Business Solutions segments.

When designing the 2016 Annual Cash Bonus Plan and when considering whether the company has reached the target performance metric for a payout under the 2016 Annual Cash Bonus Plan, the Compensation Committee determined the categories of significant, unplanned and unusual items that would be excluded from adjusted operating income, whether the resulting impact was positive or negative, because they distort the company's operating performance. This practice ensures that our executives will not be unduly influenced in their day-to-day decision-making because they would neither benefit, nor be penalized, as a result of certain unexpected and uncontrollable events or strategic initiatives that may positively or negatively affect the performance metric in the short-term. For 2016, the categories of excludable items included: merger-related expenses (OfficeMax and Staples); impacts of unplanned acquisitions and divestitures; international restructuring and country portfolio changes; impairment charges related to goodwill, other intangible assets, and long-lived assets (non-cash); and unplanned costs and benefits related to real estate strategy, including, but not limited to lease terminations or facility closure obligations; and other unplanned and unusual adjustments proposed by the Finance Committee and approved by the Compensation Committee.

The total company adjusted operating income target goal of \$500 million set by the Compensation Committee early in the year while the Staples merger was still pending and prior to the company's decision to sell the European business and the International Sale Group was approximately 109% of the 2015 performance of \$460 million. (Note 2015 performance was restated to \$438 million in late 2016 after incentive goals were set in order to reflect removal of the European business and the International Sale Group from the core operations' financials.) The maximum total company adjusted operating income goal of \$600 million was intended to be a stretch goal that was approximately 130% of 2015 performance and was intended to be very difficult to achieve if the merger with Staples was terminated. The North America adjusted operating income goals were set under a similar methodology with a target of \$447 million and a maximum of \$536 million. Finally, North America net sales goals were set at a target of \$11.434 billion and a maximum of \$12.006 billion, which were approximately 79% and 83%, respectively, of our 2015 performance of \$14.485 billion (before restatement to reflect removal of the European business and the International Sale Group). The year-over-year reduction in the North America net sales goals were driven primarily by the expectation that sales would be heavily impacted by competitors taking advantage of opportunities to win business away from the company during the lengthy process to determine whether the company would continue as a stand-alone company or be permitted to merge with Staples.

The following chart summarizes the thresholds, targets, and maximum parameters and actual 2016 performance for each of the applicable metrics selected under the 2016 Annual Cash Bonus Plan:

<u>2016 Total Company/North America Metrics*</u>	<u>Threshold Parameter (50% Payout)</u>	<u>Target Parameter (100% Payout)</u>	<u>Maximum Parameter (150% Payout)</u>	<u>2016 Performance</u>
Total Company/North America Adjusted Operating Income (80%)	\$ 402 million	\$ 447 million	\$ 536 million	\$ 471 million
North America Net Sales (20%)	\$10.862 billion	\$11.434 billion	\$12.006 billion	\$11.021 billion**

* Payouts earned for intermediate performance levels are determined using straight line interpolation. Total Company Adjusted Operating Income, which had a target of \$500 million, and North America Adjusted Operating Income, which had a target of \$447 million, resulted in the same target and performance amounts due to the divestiture of the European business on December 31, 2016 and the removal of the International Sales Group from core operations, so the Total Company Metrics and North America Metrics used to determine performance achievement were the same.

** The Committee made its performance achievement calculation for the North America Net Sales metric based on a preliminary number of \$11.001 billion; however, final performance achievement was reported at \$11.021 billion.

For purposes of determining the level of achievement for each of the bonus metrics under the 2016 Annual Cash Bonus Plan, the Compensation Committee reviewed the applicable financial metrics, as derived ultimately from our 2016 audited financial statements approved by the Audit Committee. For fiscal year 2016, the Compensation Committee certified achievement of the EBITDA funding metric based on EBITDA performance of \$647 million and approved the adjusted operating income and net sales performance results as reflected in the charts above.

On February 13, 2017, the Compensation Committee authorized bonuses under the 2016 Annual Cash Bonus Plan to be paid at 103% of target for both the Total Company Metric and the North America Metric. Mr. Schmidt was not eligible for payment under the 2016 Annual Cash Bonus Plan because the terms of his employment agreement governed following his termination of employment.

The threshold, target and maximum payout for each NEO are disclosed in the “Estimated Future Payouts Under Non-Equity Incentive Plan Awards” column of the Grants of Plan-Based Awards table below. The actual dollar amounts earned by our NEOs in 2016, pursuant to the 2016 Annual Cash Bonus Plan, are disclosed in the “Non-Equity Incentive Plan Compensation” column of the Summary Compensation Table below.

2016 Long-Term Incentive Program

The company was prohibited by the terms of the merger agreement with Staples from granting any equity incentives to associates in 2016 while the FTC appeals process was ongoing. Following the termination of the merger agreement with Staples in May 2016, the Compensation Committee designed the company’s 2016 long-term incentive program using metrics that differed from those used in 2015. Our 2016 Long-Term Incentive Program (“2016 LTIP”) includes a threshold funding metric based on EBITDA for a portion of the grant and performance metrics through the end of 2018 based on total company adjusted operating income and total shareholder return relative to our executive compensation peer group. The Compensation Committee believes that the metrics selected for 2016 were key to the company’s long-term financial stability and growth because they hold management accountable for delivery of the annual operating plan over multiple years, including continued realization of synergies from the OfficeMax transaction in the remaining years of the integration, and for delivery of the plan to grow profitability and provide shareholder value focusing on: accelerating opportunities in the North American Contracts channel, optimizing and reinventing the North American Retail model, implementing multi-year cost reductions across the company, and returning capital to shareholders.

The purpose of the company’s long-term incentive program is to further align the long-term interests of management with those of our stockholders and help retain our key talent. These objectives must be balanced such that successful, high-achieving employees remain motivated and committed even in periods of temporary market downturns or volatility in company performance as well as the periods where we have strategic transactions that create uncertainty. In support of these objectives, the 2016 LTIP award includes both time and performance-based components to promote long-term retention and achievement of key operating objectives, as set forth below:

- (1) Time Based Equity - 50% of the 2016 LTIP award consists of restricted stock units, which contain a service condition, with vesting occurring in three equal annual installments if the recipient is still employed on each applicable vesting date; and

Table of Contents

- (2) Performance Based Equity - 50% of the 2016 LTIP award consists of performance shares, which contain both a performance and service condition, with vesting occurring 100% on March 20, 2019 if the recipient is still employed, with performance based on the following multiple-year metrics:
- Total Shareholder Return - 25% of the 2016 LTIP award is based on Total Shareholder Return for the company relative to the peer group (defined below) for the performance period beginning on May 16, 2016 and ending on December 29, 2018 (“TSR Performance Period”); and
 - Adjusted Operating Income - 25% of the 2016 LTIP award is based on Total Company Adjusted Operating Income (non-GAAP) (“AOI”) for the three one-year fiscal years beginning on December 27, 2015 and ending on December 29, 2018 (the “AOI Shares”), with annual AOI targets set as follows:
 - 2016 AOI – target set at \$500 million; and
 - 2017 AOI and 2018 AOI – annual targets set for 2017 and 2018 using a three percent growth goal over actual performance in the prior year.
- AOI performance for each of the three fiscal years will be measured against the annual AOI target at the end of each year; and the applicable payout percentage, if any, will be calculated, but not paid or banked. At the end of 2018, the calculated payout percentages from each of the three years’ performance results will be averaged to determine the portion of the award earned.

The Compensation Committee also approved a threshold EBITDA of \$250 million for the AOI Shares. Accordingly, if our EBITDA threshold was not met, the AOI Shares would not be paid regardless of how we perform on our AOI performance metric. A lower EBITDA threshold was set under the 2016 LTIP (as compared to the 2016 Annual Cash Bonus Plan) because the EBITDA performance period for the 2016 LTIP was shorter because the grant date was delayed until May. The shortened EBITDA period was necessary to comply with Internal Revenue Code (“Code”) Section 162(m) exemption for performance-based compensation and so the company could make meaningful grants under the 2016 LTIP within weeks of the termination of the merger agreement with Staples in order to address retention concerns and keep management and the organization focused on its 2016 Annual Operating Plan despite the distraction and additional uncertainty that was created by the failed merger. EBITDA is calculated as follows:

1. Operating Income, plus Asset Impairments, plus Merger Restructuring and Other Operating Expenses, each as reported in the company’s Audited Consolidated Statement of Operations for the second, third, and fourth quarters of 2016, plus
2. Depreciation and Amortization, as reported in the company’s Audited Consolidated Statement of Cash Flows for the second, third, and fourth quarters of 2016.

The 2016 long-term incentive performance metrics are designed to allow for payouts to be determined within the range of threshold and maximum and so long as the minimum EBITDA threshold was achieved where applicable. The 2016 LTIP payout is capped at 150% of target payout on the Total Shareholder Return metric and 200% of target payout on the AOI metric as the Compensation Committee believed these caps are market competitive for long-term incentives. Actual payout on the AOI metric is also subject to the Compensation Committee’s ability to exercise “negative discretion” to decrease such payout if such incentive is not, in the Compensation Committee’s opinion, appropriately earned or should not be paid.

When considering whether the company has reached the AOI performance metric for a payout under the 2016 LTIP, the Compensation Committee, when designing the 2016 LTIP, determined the categories of significant, unplanned and unusual items that would be excluded from adjusted operating income, whether the resulting impact was positive or negative, because they distort the company’s operating performance. This practice ensures that our executives will not be unduly influenced in their day-to-day decision-making because they would neither benefit, nor be penalized, as a result of certain unexpected and uncontrollable events or strategic initiatives that may positively or negatively affect the performance metric in the long-term. For 2016, the categories of excludable items included: merger related expenses (OfficeMax and Staples); impacts of unplanned acquisitions and divestitures; international restructuring and country portfolio changes; impairment charges related to goodwill, other intangible assets, and long-lived assets (non-cash); and unplanned costs and benefits related to real estate strategy, including, but not limited to lease terminations or facility closure obligations; and other unplanned and unusual adjustments proposed by the Finance Committee and approved by the Compensation Committee.

The Compensation Committee set the following thresholds, targets, and maximum parameters for each of the applicable metrics selected under the 2016 LTIP:

Total Shareholder Return (as compared to peer group)*	Threshold Parameter (50% Payout)	Target Parameter (100% Payout)	Maximum Parameter (100% Payout)**	Maximum Parameter (150% Payout)**
Company TSR is Positive	30 th percentile	50 th percentile	N/A	70 th percentile
Company TSR is Negative	30 th percentile	50 th percentile	70 th percentile	N/A
Total Company AOI*	Threshold Parameter (50% Payout)	Target Parameter (100% Payout)	Maximum Parameter (200% Payout)	Actual Performance**
2016 AOI (33.3%)	\$402 million	\$447 million	\$536 million	\$471 million
2017 AOI (33.3%)	\$436.5 million	\$485 million	\$679 million	TBD
2018 AOI (33.4%)	90% of 2018 AOI Target	103% of Actual 2017 AOI	140% of 2018 AOI Target	TBD

* Payouts earned for intermediate performance levels are determined using straight line interpolation.

** Payouts for achievement of negative company TSR are capped at 100% payout regardless of percentile achievement relative to the comparative peer group. Payouts for achievement of positive company TSR are capped at 150% payout. A four times value cap will also be applied if applicable.

For purposes of determining the level of achievement for the 2016 metrics under the 2016 LTIP, the Compensation Committee reviewed the applicable financial metrics, as derived ultimately from our 2016 audited financial statements approved by the Audit Committee. On February 13, 2017, the Compensation Committee approved the EBITDA for the 2016 LTIP at \$474 million and certified that the required EBITDA threshold was satisfied for the AOI metric. The Compensation Committee also approved 2016 AOI at \$471 million as shown in the chart above, which resulted in one-third of the 2016 LTIP award based on the AOI metric being calculated at 114%. The Compensation Committee set the 2017 AOI target at \$485 million based on the pre-established goal of 3% above 2016 actual results. Total Shareholder Return performance is not determinable until the completion of the TSR Performance Period at the end of 2018.

Why does the company continue to use similar performance measures in both its Annual and Long-Term Incentives Programs?

The Compensation Committee modified the company's 2016 incentive programs to include a sales metric in the short-term program and a total shareholder return metric in the long-term program which is equal in weight to the adjusted operating income metric in the long-term program. However, the Compensation Committee retained adjusted operating income in both programs because it continues to believe that adjusted operating income remains the key driver of stockholder value for our company. Adjusted operating income focuses on sustainable value creation, including revenue generation, cost reduction and synergy realization, each of which is critical in driving earnings improvement. In addition, the Compensation Committee believes that the management team continues to perform better when it is focused on a reinforced, well understood metric that balances revenue, cost and profit objectives. The use of adjusted operating income allows management to appropriately focus on driving down costs and achieving forecasted synergies, but also grow the top line. Furthermore, we have various controls in place to mitigate potential risk-taking with having adjusted operating income in both programs. These controls include a clawback policy, negative discretion used by the Compensation Committee to ensure that annual bonus and performance stock unit payouts are appropriate, robust executive stock ownership guidelines to ensure that NEOs are long-time stockholders of the company, and use of a three-year vesting schedule in the 2016 LTIP program.

2015 Long-Term Incentive Program

The Compensation Committee certified in 2016 that the 2015 Free Cash Flow threshold gate of negative \$200 million for the 2015 Long-Term Incentive Program ("2015 LTIP") was achieved based on 2015 Free Cash Flow performance of negative

\$37 million. The Compensation Committee also approved performance achievement of 130% of target for the performance shares granted under the 2015 LTIP award based on the company's 2015 AOI performance of \$460 million (before restatement to reflect removal of the European business and the International Sale Group). The eligible NEOs will be eligible to vest in their 2015 LTIP awards on March 4, 2018 if they are still employed with the company. Further information on the 2015 LTIP design is included in the company's Proxy Statement filed on June 13, 2016.

2014 Long-Term Incentive Program

The Compensation Committee certified in 2017 that the cumulative three years Free Cash Flow threshold gate of negative \$250 million for the 2014 Long-Term Incentive Program ("2014 LTIP") was achieved based on cumulative Free Cash Flow for the 2014, 2015, and 2016 fiscal years of \$384 million. The Compensation Committee also approved performance achievement of 150% of target for the performance shares granted under the 2014 LTIP award based on the company's cumulative AOI performance for the 2014, 2015, and 2016 fiscal years of \$1,219 million. The eligible NEOs will be eligible to vest in their 2014 LTIP awards as of the third anniversary of their applicable grant date if they are still employed with the company. Further information on the 2014 LTIP design is included in the company's Proxy Statement filed on May 15, 2015.

Outstanding Long-Term Incentive Programs

On October 27, 2016, the Compensation Committee approved an amendment to certain outstanding awards made under the company's long-term incentive programs to the NEOs, excluding the CEO and Mr. Schmidt, to address retention concerns with management as a result of the ongoing and lengthy CEO selection process. The changes applied to certain outstanding restricted stock unit ("RSU") and performance share unit ("PSU") awards previously awarded in fiscal years 2013 through 2016, as applicable (the "Awards"). Under the amendments, each of the eligible NEOs who is involuntarily terminated by the company without Cause (as that term is defined in the applicable award agreement) will continue to vest (to the extent they have not already vested) in the portion of his/her Awards that would otherwise have vested in 2017 if he/she had not been terminated prior to the 2017 vesting date. All applicable performance requirements under the Awards will continue to apply. All other outstanding equity previously granted to the eligible NEOs that would otherwise vest after 2017 will continue to be forfeited as of the applicable termination date.

On December 23, 2016, the Compensation Committee also approved an amendment to the 2016 LTIP awards made to Messrs. Hare and Allison. Under the amendment, Messrs. Hare and Allison will continue to vest (to the extent they have not already vested) in their outstanding 2016 LTIP awards, if any, following voluntary termination; provided that, they remain employed with the company through March 31, 2018. All applicable performance requirements under the 2016 LTIP will continue to apply. The Compensation Committee also approved that similar vesting provisions would apply to any long-term incentive grants made to Messrs. Hare and Allison in 2017.

Amendment to Mr. Roland Smith's Employment Agreement

In connection with Mr. Roland Smith's planned retirement, the company and Mr. Smith entered into an agreement, dated August 21, 2016, that amended and supplemented Mr. Smith's employment agreement with the company, dated November 12, 2013 (together with a prior amendment effective February 7, 2014, the "Amended Employment Agreement"). The Amended Employment Agreement provided the terms and conditions for Mr. Smith's continued employment with the company until his planned retirement following the Board's appointment of a new chief executive officer, including:

- (1) Mr. Smith's eligibility for participation in the company's 2017 annual cash bonus plan with earned amounts, if any, based on Mr. Smith's service during 2017 and the company's actual performance against the 2017 performance metrics approved by the Compensation Committee;
- (2) A special bonus of \$2 million payable in a cash lump sum with payment timing tied to Mr. Smith's execution of a company release following his termination; and
- (3) Mr. Smith will continue to vest (to the extent he has not already vested) in his outstanding 2016 LTIP award following his termination under his award's normal vesting schedule on March 20th in 2017, 2018, and 2019, as applicable, and will be deemed to have completed all required service. All applicable performance requirements under the 2016 LTIP award will continue to apply.

For a detailed description of Mr. Roland Smith's Amended Employment Agreement, please see the section entitled "Summary of Executive Agreements and Potential Payments upon Termination or Change in Control" beginning on page 34.

Retention and Termination Payments to Mr. Schmidt

Mr. Schmidt received a retention bonus of \$1 million on March 15, 2016 according to the terms of his retention award granted in 2015. In connection with Mr. Schmidt's termination, he also received a severance payment of \$2,786,196 on November 28, 2016, calculated according to the terms of his employment agreement. For a detailed description of Mr. Schmidt's employment and retention agreements, please see the section entitled "Summary of Executive Agreements and Potential Payments upon Termination or Change in Control" beginning on page 34.

Payments Following Termination to Mr. Cosby

In connection with Mr. Cosby's termination, he is eligible to receive a severance payment of \$1,367,122 calculated according to the terms of his employment agreement. Payment of Mr. Cosby's severance is required to be delayed until May 18, 2017 to comply with Code Section 409A. For a detailed description of Mr. Cosby's employment agreement, please see the section entitled "Summary of Executive Agreements and Potential Payments upon Termination or Change in Control" beginning on page 34.

Mr. Cosby is also eligible to receive \$807,163, which represents a pro-rata portion of his bonus earned under the 2016 Annual Cash Bonus Plan based on his service completed in the performance period through his termination date. Payment of Mr. Cosby's earned bonus is also delayed until May 18, 2017 to comply with Code Section 409A.

Finally, Mr. Cosby will continue to vest in the portion of his long-term incentive awards granted to him in fiscal years 2014, 2015, and 2016 that would otherwise have vested in 2017 (according to the terms of the amendment approved by the Compensation Committee on October 27, 2016) because he was involuntarily terminated by the company without Cause (as defined in his applicable award agreements). All applicable performance requirements under these awards will continue to apply. All other outstanding equity previously granted to Mr. Cosby that would have otherwise vested after 2017 was forfeited as of his termination date.

Executive Compensation Process and Governance

What was the process used to determine executive compensation in 2016?

The Compensation Committee generally kept executive compensation in 2016 consistent with executive compensation in 2015 with a few adjustments described above. The Compensation Committee continued to engage FW Cook as its independent compensation consultant to assist the Compensation Committee with its annual review of executive compensation matters, including:

- Overall compensation philosophy;
- Peer group construction and member companies;
- Design of our short-term and long-term incentive programs;
- Risk analysis of our incentive plans;
- Executive compensation determination;
- Executive compensation disclosure and discussion of best practices for such disclosure;
- Benchmarking of certain policies and practices, including director and executive stock ownership guidelines; and
- CEO leadership transition compensation arrangements.

Members of management, including our former CEO, Mr. Roland Smith, provided input to the Compensation Committee regarding executive compensation for the NEOs (other than himself). Management provided input for the Compensation Committee's consideration regarding the performance metrics for our 2016 Annual Cash Bonus Plan and 2016 LTIP.

How is peer group data used by the Compensation Committee?

The Compensation Committee believes benchmarking is a useful method to gauge both the compensation level and compensation mix for executives within competitive job markets that are relevant to our company. The Compensation

[Table of Contents](#)

Committee generally reviews data gathered from the proxy statements of our peer group (as defined below) as well as industry surveys for benchmarking purposes in its review and analysis of base salaries, bonuses, long-term incentives, and benefits/perquisites to establish our executive compensation program.

The peer group was developed based on the following criteria:

- Initial selection focused on companies in the following Global Industry Classification Standard code (“GICS”):
 - Capital Goods
 - Commercial & Professional Services
 - Food & Staples Retailing
 - Retail and
 - Technology Hardware & Equipment.
- Companies within the selected GICS were then screened further based on the following additional criteria:
 - One-third to three times our pro-forma revenue
 - Five times our recent market cap
 - Similar operating margin
 - Similar business model, including product lines, multi-channel retailing, business to business distributor, and/or business-to-business services presence and
 - Prevalent “peer of peers.”

Companies selected for the peer group were required to have a significant number of the characteristics described above, but not necessarily all of them. Judgment was used to ensure that the median revenue of the group remained reasonable and to create a balanced mix of retailers, distributors, and service companies.

Peer group data is generally reviewed annually to determine if modifications to the peer group or the criteria used to determine the peer group are necessary. The Compensation Committee determined that no changes to the criteria were needed; and the companies listed below would be used to make up the company’s peer group in 2016, which was used by the Compensation Committee to make executive compensation decisions and as the comparison group for the Total Shareholder Return metric under the 2016 LTIP:

Arrow Electronics, Inc.	Casey’s General Stores, Inc.	J.C. Penny Company, Inc.
AutoNation, Inc.	CDW Corporation	Kohl’s Corporation
Avnet, Inc.	Dick’s Sporting Goods, Inc.	Macy’s, Inc.
Barnes & Noble, Inc.	Dollar General Corporation	R.R. Donnelley & Sons Company
Bed Bath & Beyond Inc.	Essendant, Inc.	Rite Aid Corporation
Best Buy Co., Inc.	Genuine Parts Company	Staples, Inc.
Big Lots, Inc.	Insight Enterprises, Inc.	

In addition to the benchmarking results, the Compensation Committee generally considers the following in making executive compensation decisions:

- Our financial performance and the financial performance of the peer group when setting executive compensation
- Individual performance, tenure, and responsibilities in the executive’s current position
- Target total direct compensation structures (i.e., sum of salary, annual bonus, and cash and equity awards)
- Variable compensation program design and/or
- Benefit and perquisite offerings.

When making compensation decisions, the Compensation Committee considers each element of compensation individually (i.e. base salary, short-term incentives, and long-term incentives), but also considers the target total direct compensation and mix of compensation paid to the NEOs. The Compensation Committee also considers strategic business decisions when developing and approving the compensation program.

Does the Compensation Committee take tax and accounting consequences into account when designing executive compensation?

Code Section 162(m) generally does not allow a tax deduction to public companies for compensation in excess of \$1 million paid to the CEO or certain other NEOs, excluding the CFO. Certain compensation is specifically exempt from the deduction limit to the extent that it does not exceed \$1 million during any fiscal year or is “performance-based” as defined in Code Section 162(m). The Compensation Committee strives to structure NEO compensation to be exempt from the deductibility limits set in Code Section 162(m) whenever possible. The Compensation Committee also believes that tax deductibility is but one factor to consider in developing an appropriate compensation package for executives. As a result, the Compensation Committee reserves and will exercise its discretion in this area to design a compensation program that serves the long-term interests of the company, but which may not qualify for tax deductibility as a result of Code Section 162(m). In fiscal year 2016, a portion of the compensation paid to certain of our NEOs was not deductible for tax purposes pursuant to Code Section 162(m).

In addition to Code Section 162(m), the Compensation Committee considers other tax and accounting provisions in developing the pay programs for the NEOs, including:

- The special rules applicable to fair value based methods of accounting for stock compensation; and
- The overall income tax rules applicable to various forms of compensation.

While the Compensation Committee generally tries to compensate the NEOs in a manner that produces favorable tax and accounting treatment, the main objective is to develop fair and equitable compensation arrangements that appropriately incentivize, reward, and retain the NEOs and aligns the company’s performance goals with stockholder returns.

Share usage requirements and resulting potential stockholder dilution from equity compensation awards is also considered by the Compensation Committee in determining the size of long-term incentive grants.

Do we have change of control agreements with our NEOs?

The Compensation Committee believes that change in control (“CIC”) agreements effectively motivate executives to remain engaged and strive to create stockholder value in the event the company becomes an acquisition target or is targeting another company for acquisition, despite the risk of job loss or the loss of equity vesting opportunity. In addition, these arrangements are necessary to attract and retain qualified executives who may have other job alternatives that may appear to them to be less risky absent these arrangements, and these arrangements are particularly important to the company given the high levels of competition for executive talent in the retail sector.

The company has a CIC Plan pursuant to which we will provide certain severance pay and other benefits to several key executives, including the NEOs (other than the CEO), who are viewed by us as critical to the continued leadership of the company in the event of a change in control. The use of a planned approach provides many benefits when compared to entering into individual change in control agreements with each NEO. In most instances, this method ensures consistent terms and provisions and allows us flexibility to amend or change our practices in response to market trends and best practices. The CIC Plan includes features considered to be best practices, including a double trigger for change in control benefits.

For a detailed description of the company’s change in control plan and agreements with our NEOs, please see the section entitled “Summary of Executive Agreements and Potential Payments upon Termination or Change in Control” beginning on page 34.

What types of perquisites are NEOs eligible to receive?

The company provides the NEOs with a set of core benefits that are generally available to the company’s other full-time employees (e.g., coverage for medical, dental, vision care, prescription drugs, annual physical, and basic life insurance and long-term disability coverage), plus voluntary benefits that a NEO may select (e.g., supplemental life insurance).

In addition, the company has a matching contribution to the 401(k) plan for all participants, including the NEOs, which is equal to 50% of employee deferrals on the first 6% of eligible earnings (up to plan limits). The Compensation Committee believes it is important to offer a benefit of this nature to further motivate and retain employees.

[Table of Contents](#)

Consistent with the peer group and the current trend in executive compensation, the company limits the perquisites provided to its NEOs. Other than the car allowances and financial planning services provided to its NEOs, perquisites are reserved for the attraction and retention of executive talent and to allow NEOs to efficiently handle the responsibilities of their position. The company's Aircraft Personal Use Policy states that the use of company-leased aircraft will be limited to the CEO (subject to an annual hours limit) and other executives as extenuating circumstance may require. The Compensation Committee reviews executive aircraft use quarterly and has established upper limits on personal usage. Please see the "Summary Compensation Table" and the footnotes to such table for further information concerning any such perquisites paid to NEOs.

Do the Compensation Committee and Audit Committee review incentive programs to ensure that they do not encourage excessive risk-taking?

The Compensation Committee and Audit Committee jointly meet annually to review a report prepared by our Internal Audit Department upon such Department's review of the design of each of the incentive programs for the company's regions, certain classifications of employees and business lines, and other relevant programs. Such report assesses whether or not any inappropriate actions had been taken under such programs or whether such programs had any features to incentivize risk-taking. In addition, our independent compensation consultant also reviews and assesses the risk in our compensation programs. The Committees jointly reported to the Board that they do not believe that any aspects of the 2016 compensation program encouraged the NEOs to take unnecessary and excessive risks.

Additionally, the financial goals set forth in the corporate annual cash bonus plan and the long-term incentive program are based upon performance targets that the Compensation Committee believes are attainable without the need to take inappropriate risks or make material changes to the company's business or strategy. Furthermore, the 2016 LTIP awards vest over a three-year period to encourage a longer-term perspective. Finally, the equity component of the company's compensation program, including the addition of the Total Shareholder Return metric in the 2016 LTIP, coupled with our stock ownership guidelines, align executive and long-term stockholder interests because value is linked to changes in our stock price.

Does the Board have a clawback policy for bonuses and awards paid to NEOs in the event we restate our financial results?

In February 2010, the Board adopted a policy for recoupment of incentive compensation (the "clawback policy"). The clawback policy provides that if we restate our reported financial results for any period beginning after January 1, 2010, the Board will review the bonus and other awards made to executive officers based on financial results during the period subject to the restatement. To the extent practicable and in the best interests of stockholders, the Board will seek to recover or cancel any such awards that were based on having met or exceeded performance targets that would not have been met under the restated financial results.

Are there any restrictions on the ability of our NEOs to engage in transactions involving our stock?

In February 2011, the Board adopted an anti-hedging policy which prohibits hedging transactions with respect to company securities by our directors, executive officers and all other employees.

Furthermore, in October 2014, the Board adopted an anti-pledging policy which prohibits its directors and executive officers from using company stock as collateral for any borrowing.

Are the NEOs subject to any minimum requirements regarding ownership of our stock?

The Compensation Committee believes that the NEOs should maintain a meaningful equity interest in the company through the ownership of stock. As such, the following stock ownership guidelines are in place for our NEOs still employed by the company:

<u>Position</u>	<u>Stock Ownership Requirement</u>
CEO	6x annual base salary
All other NEOs	3x annual base salary

[Table of Contents](#)

Our stock ownership guidelines are robust and continue to reflect current corporate governance trends. We require that all NEOs satisfy the ownership requirement by holding company stock equal to a multiple of base salary rather than as a fixed number of shares. This requires NEOs to hold more shares in the event that our stock price decreases. Our CEO and NEOs are only permitted to sell stock before meeting the ownership requirements if they retain 50% of the net shares (after shares are disposed of to pay for taxes and acquisition), which is in line with peer group practice. The type of equity considered for purposes of determining compliance with the stock ownership guidelines is equity that is earned or vested, which is defined as the following:

- Shares held outright (including restricted stock for which the restrictions have lapsed and shares purchased on the open market);
- Vested RSUs that have been deferred for tax purposes; and
- Shares held in 401(k) accounts.

The current guidelines are considered competitive according to the market data provided by FW Cook. The Compensation Committee annually reviews each NEO's progress toward meeting the ownership guidelines.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During the 2016 fiscal year, the Compensation Committee was comprised of the following directors: Dr. David M. Szymanski (Chair), Ms. Cynthia T. Jamison, and Messrs. V. James Marino and Michael J. Massey. During the 2016 fiscal year, all members of the Compensation Committee were independent directors, and no member was an employee or former employee of the company. In addition, none of the company's executive officers served on the board of directors or Compensation Committee (or other committee serving an equivalent function) of another entity whose executive officer served on the Compensation Committee.

COMPENSATION PROGRAMS RISK ASSESSMENT

In 2017, the Compensation Committee, in a joint meeting with the Audit Committee, assessed the company's 2016 compensation programs and practices and concluded that such programs and practices do not create risks that are reasonably likely to have a material adverse effect on the company. The Compensation Committee's independent compensation consultant also reviews and assesses the risk in our compensation programs.

The company conducted a risk assessment that included a detailed qualitative and quantitative analysis of its compensation programs to which employees at all levels of the organization may participate, including the NEOs. The Compensation Committee also considers how the design of the company's compensation programs compares to compensation programs maintained by the company's peer companies. Based on the company's risk assessment, and the reviews done by the independent compensation consultant and the Compensation and Audit Committees jointly, the Compensation Committee believes that the company's 2016 compensation programs have been appropriately designed to attract and retain talent and properly incentivize employees to act in the best interests of the company.

The company has programs and features that are designed to ensure that its employees, including the NEOs, are not encouraged to take unnecessary risks in managing the company's business, including:

- Oversight of compensation programs (or components of programs) by the Compensation Committee and by a broad-based group of functions within the company, including the Human Resources, Legal, and Internal Audit Departments;
- Discretion provided to the Compensation Committee (including negative discretion) to set targets, monitor performance, and determine final incentive award payouts;
- A variety of programs that provide focus on both short-and long-term goals and that provide a balanced mixture of cash and equity compensation;
- Incentives focused primarily on the use of financial metrics based on the annual operating plan which is approved by the Board;
- Multi-year service-based vesting conditions with respect to equity-based awards;
- Adoption of a total shareholder return metric under the long-term incentive program; and
- An incentive pay recoupment policy which provides for recoupment of incentive compensation in the event of a financial restatement.

The company periodically monitors its incentive programs throughout the year to ensure that such programs do not encourage undue risk taking and appropriately balance risk and reward consistent with the company's enterprise risk management efforts.

- (1) The 2016 fiscal year was a 53-week period. All compensation reflected in the table above and the tables that follow, as applicable, represents compensation earned over the full 53-week period.
- (2) Column (c) is used to record salary amounts that include cash compensation earned by each NEO during fiscal years 2016, 2015 and 2014 as well as any amounts earned in those years but contributed by the NEO into an NEO's 401(k) Plan at the election of the NEO.
- (3) The dollar amounts in columns (e) and (f) reflect the aggregate grant date fair value of equity awards granted within the fiscal year under the 2015 LTIP, in accordance with FASB ASC Topic 718 for stock-based compensation. These amounts reflect the total grant date fair value for these awards, and do not correspond to the actual value that will be recognized as income by each of the NEOs when received. Assumptions used in the calculation of these award amounts are included in Notes 1 and 11 to the consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2016. For 2016, the aggregate grant date fair value of equity awards reported in column (e) reflects the grant date fair value of performance-based stock units plus the grant date fair value of time-vested restricted stock units granted to the NEOs. The grant date fair value of the performance-based stock units at the maximum level of achievement is \$5,818,694 for Mr. Smith, \$2,182,016 for Messrs. Cosby and Hare, \$1,091,003 for Mr. Allison, \$727,342 for Ms. Johansson, and \$654,599 for Mr. Rice.
- (4) The amounts in column (g) for 2016 reflect cash awards earned under the 2016 Annual Cash Bonus Plan, which is previously discussed in more detail under the section entitled "2016 Annual Cash Bonus Plan." The amount reported for 2016 was based on fiscal year 2016 performance and was paid to all of the NEOs in the fiscal month March of 2017.
- (5) The dollar amounts in column (i) summarize the amounts included in the "Other Compensation Table for Fiscal Year 2016" that follows, which reflects the types and dollar amounts of perquisites and other personal benefits provided to the NEOs during the fiscal year 2016. For purposes of computing the dollar amounts of the items listed in the Other Compensation Table, except as otherwise noted, the actual incremental costs to the Company of providing the perquisites and other personal benefits to the NEOs was used. Each perquisite and other personal benefit included in the Other Compensation Table that follows is described in more detail in the narratives immediately following the table.

- Column (c) reflects the minimum payments each NEO could expect to receive if Office Depot reached at least its threshold performance goal set by the Compensation Committee in fiscal year 2016 under the 2016 Annual Cash Bonus Plan. Threshold was set at 50% of target for all NEOs. The financial performance goal was targeted to pay out at 100% upon achievement with a maximum payout of 150% of target to be paid if target was exceeded. Column (d) reflects the target payments each NEO could expect to receive if Office Depot reached its target performance goals in 2016 under the 2016 Annual Cash Bonus Plan. Each NEO's target annual bonus is expressed as a percentage of such officer's bonus eligible earnings. For 2016, the target bonus percentage was 150% of bonus eligible earnings for Mr. Smith, 85% for Messrs. Hare and Schmidt, 75% for Mr. Allison and Ms. Johansson, 75% for Mr. Rice (65% for the portion of the year prior to his promotion), and 100% for Mr. Cosby. Column (e) reflects the maximum payout each NEO could expect to receive if target was exceeded. Performance below threshold would result in no bonus being paid. See the section entitled "2016 Annual Cash Bonus Plan" beginning on page 15 for additional details.
- Columns (f) through (h) reflect the threshold, target and maximum payouts for performance stock units granted pursuant to the 2015 LTIP. NEOs will be eligible to earn all or a portion or an amount in excess of their target share award based on Office Depot's performance relative to the metrics established by the Compensation Committee for the 2016 fiscal year. In addition to Office Depot satisfying at least the threshold performance condition under each of the metrics, NEOs must also satisfy the service condition to become vested in their eligible award by remaining continuously employed by Office Depot from the date of grant until the vesting date. Further description of the NEO's 2016 long-term incentive award is discussed in the section entitled "2016 Long-Term Incentive Program" beginning on page 17.
- Column (i) represents time-vested RSUs granted pursuant to Office Depot's 2015 LTIP. The RSUs will vest one-third on each of March 20, 2017, March 20, 2018, and March 20, 2019, provided that each NEO is continuously employed by Office Depot from the grant date until each such vesting date.
- Column (l) is computed in accordance with FASB ASC Topic 718 for stock-based compensation. See Notes 1 and 11 of the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2016 regarding assumptions underlying the valuation of equity awards. These amounts do not correspond to the actual value that will be recognized as income by each of the NEOs when received.

DIRECTOR COMPENSATION

Annual Retainer Fee

The Compensation Committee set the compensation for the non-management directors for the 2016-2017 service year at an annual targeted economic value (“annual retainer fee”) of \$200,000. Of this amount, \$75,000 is payable in cash in equal quarterly installments at the end of each quarter during which the director served. No deferrals of cash payments are permitted by the directors. The remaining \$125,000 of the annual retainer fee is granted as stock unless the director elects to defer his/her stock in the form of RSUs to be distributed in shares following termination of Board service, with such election made by the end of the prior tax year for existing directors and prior to appointment to the Board for new directors. The equity portion is typically granted in a lump sum as soon as administratively practicable following the release of election results from the annual shareholder meeting, which is generally held in the second quarter of the year.

The independent compensation consultant reviews our non-management directors’ compensation program periodically to determine its competitiveness against the compensation of the boards of directors of our peer group (as defined in the CD&A). At its review in October, 2014, the amount of the non-management directors’ retainer fee was between the 25th percentile and median relative to the peer group. However, the Compensation Committee did not recommend any changes to the dollar amount of the annual retainer fee payable to our non-management directors at that time. A market competitive assessment was not completed in October, 2015 because the Staples merger agreement was in effect at the time. No changes were recommended to the dollar amount of the annual retainer fee payable to our non-management directors for the 2016-2017 service period.

The Lead Director, if any, and Audit Committee Chair each receive additional compensation of \$25,000 annually for serving in their roles, the Compensation Committee Chair and Finance Committee Chair each receive additional compensation of \$20,000 annually for serving in their roles, and the Corporate Governance and Nominating Committee Chair receives an additional \$15,000 annually. The additional compensation for services as the Lead Director, if any, or as a committee chair is payable in stock unless the director has elected to receive RSUs as explained above for the equity portion of his/her annual retainer fee.

The Board established a CEO Search Committee in 2016 in connection with Mr. Smith’s planned retirement. This special committee included: Messrs. Bryant (Chair) and Marino and Ms. Jamison and Luzuriaga. The Board approved a one-time cash payment of \$25,000 for the Chair and \$15,000 for each of the non-Chair members, which was paid on December 5, 2016 to each of the special committee members. The committee member fees were established after the Compensation Committee’s independent compensation consultant provided peer group benchmarking for special committees’ fees.

The Board appointed Mr. Joseph Vassaluzzo as the independent Chairman of the Board (in lieu of a Lead Director) effective February 27, 2017, following Mr. Roland Smith’s departure since Mr. Smith had previously been the Board Chairman. The independent Chairman of the Board receives additional compensation of \$150,000 annually in cash for serving in this role.

Director Stock Ownership Guidelines

Non-management directors are required to own five times the directors’ annual cash retainer (equal to \$375,000) in shares of the company’s common stock. Directors must also retain 100% of net shares awarded until termination of their service on the Board.

The Compensation Committee reviews the stock ownership guidelines for our non-management directors annually, with the assistance from its independent compensation consultant, to ensure that such guidelines align with best market practices, including the practices of a majority of the company’s peer group, and with management’s ownership guidelines. In addition, the Compensation Committee annually reviews each director’s progress toward meeting the ownership guidelines.

SUMMARY OF EXECUTIVE AGREEMENTS AND POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

Overview

This section summarizes the key agreements governing the employment of the Named Executive Officers: Roland C. Smith, Stephen E. Hare, Troy Rice, Michael Allison, Mark Cosby, Steven Schmidt and Juliet Johansson. It also summarizes the potential payments that Messrs. R. Smith, Hare, Rice and Allison stand to receive upon termination or a change in control of the Company and the payments that Messrs. Cosby and Schmidt and Ms. Johansson received upon their terminations. Providing these considerations allows Office Depot to attract top talent in a competitive sector, allows executives to focus on their jobs without distraction, and ensures that critical executives will remain committed to Office Depot's mission in the event of a change of control.

Mr. R. Smith was not eligible for the Lump Sum and the COBRA Payment in connection with his Retirement.

If Mr. R. Smith had remained employed with the Company in any executive capacity beyond March 31, 2017, he would have become entitled to the Special Bonus on March 31, 2017, but he would not have become entitled to the Lump Sum and the COBRA payment in the event of his later termination of employment for Good Reason or without Cause.

The non-competition provisions of Mr. Smith's employment agreement will continue to apply following his Retirement for the remaining vesting period of Mr. R. Smith's equity compensation awards granted in fiscal year 2016 (and would have continued to apply for the remaining vesting period of any equity compensation awards granted to Mr. R. Smith in any later year, had he remained employed with the Company in any executive capacity beyond March 31, 2017).

If Mr. R. Smith's employment had been terminated for Good Reason or without Cause (other than on account of Mr. R. Smith's death or disability) and in either case within twelve (12) months following a Change in Control, the amendment to his employment agreement would have been rendered obsolete.

Mr. Hare, Mr. Allison, Mr. Rice and Ms. Johansson

Termination Without Cause or With Good Reason. Pursuant to their letter agreements, if (i) Mr. Hare is terminated by the Company without Cause or voluntarily terminates his employment with Good Reason or (ii) if Mr. Allison, Mr. Rice or Ms. Johansson is terminated due to no fault of his or her own, then the Company will pay the executive the following:

- 18 months of annual base salary in effect on the date of termination;
- 18 times the difference between the Company's monthly COBRA for the type of coverage in effect for executive on the date of termination and the applicable active employee monthly premium for such coverage ; and
- Pro-rata annual bonus calculated based on actual performance for the year of termination (for Mr. Allison, based on target performance), payable at the same time as payments are made to other active participants in the annual bonus plan.

Pursuant to an amendment approved by the Compensation Committee on October 27, 2016, in the event of Mr. Hare, Mr. Allison, Mr. Rice or Ms. Johansson's involuntary termination of employment, the executive will continue to vest in the portion of their restricted stock units granted in fiscal years 2013, 2014, 2015 and 2016 that would otherwise have vested in 2017 and in the portion of their performance share awards granted in fiscal year 2014 and tied to performance for the Company's cumulative 2014-2016 fiscal year period. All applicable performance requirements under these awards will continue to apply.

For each executive, the receipt of severance benefits is conditioned upon the executive's agreement to a standard release of claims against the Company as well as the executive's continued observance of the confidentiality, non-competition, and non-solicitation and non-disparagement commitments they entered into upon commencement of employment.

Executive Change in Control Severance Plan

All NEOs except for Messrs. R. Smith and Schmidt were covered by the Company's CIC Plan in fiscal year 2016. The severance pay and other benefits payable to an executive upon the executive's termination of employment after a Change in Control under the CIC Plan will be paid in lieu of, and not in addition to, any severance benefits payable under any executive's existing offer letter, employment agreement or other program or agreement on account of the executive's termination of employment with the Company.

Pursuant to the CIC Plan, a covered NEO will be eligible to receive certain severance pay and other benefits upon a separation from service that is initiated by: (i) the Company other than for Cause; or (ii) the Executive for Good Reason, in either case during the time period commencing on the effective date of a Change in Control and until the earlier of: (x) the two-year anniversary of the Change in Control trigger date, or (y) the date of the executive's separation from service by reason of Disability or death.

A covered NEO will also be eligible to receive certain severance pay and other benefits if the executive's separation from service is initiated by: (a) the Company without Cause during the six-month period ending on the Change in Control trigger date at the request of a third party engaging in a transaction or series of transactions that would result in a Change in Control and in contemplation of a Change in Control, or (b) the executive for Good Reason during the six-month period ending on the Change in Control trigger date.

Under the CIC Plan, qualifying NEOs will be eligible to receive severance pay and other benefits as follows (collectively, the "NEO Severance Benefits"):

- i. *Pro-Rata Bonus for Year of Termination.* A lump sum cash payment equal to the pro-rata portion of the NEO's annual cash bonus based on actual achievement of the performance goals applicable for the performance period.
- ii. *Prior Year Bonus.* If the termination causes the NEO to forfeit payment of the NEO's annual cash bonus for a completed performance period, a lump sum cash payment equal to the full amount of the annual cash bonus which the NEO would have received based on actual achievement of the performance goals.
- iii. *Change In Control Severance Amount.* An amount equal to two (2) times (for Mr. Rice, one and one-half (1 1/2) times) the sum of the NEO's: (i) base salary, and (ii) Average Annual Bonus (as defined in the CIC Plan).

Table of Contents

iv. *COBRA Payment.* An amount equal to eighteen (18) times the monthly COBRA premium in effect on the date of the NEO's separation from service for the type of Company-provided group health plan coverage in effect for the NEO (e.g., family coverage) less the active employee premium for such coverage in effect on the date of the separation from service.

v. *Equity and Long-Term Incentives.* Any outstanding equity or long-term compensation grant shall be treated in accordance with the terms of the applicable equity or long-term incentive compensation plan or award agreement under which the grant or award was made.

vi. *Outplacement.* Subject to the requirements of Section 409A as described in the CIC Plan, within sixty (60) days following the date of an NEO's separation from service, the Company will make available a twenty-four (24) month executive outplacement services package for such NEO.

Any payment or benefit received or to be received by an NEO (whether payable under the terms of the CIC Plan or any other plan or arrangement with the Company or its affiliates) that would constitute a "parachute payment" within the meaning of Code Section 280G will be reduced to the extent necessary so that no portion will be subject to any excise tax but only if, by reason of such reduction, the net after-tax benefit received by such NEO exceeds the net after-tax benefit that would be received by such NEO if no reduction was made.

Mr. Cosby

Mr. Cosby's letter agreement provided that in the event of his termination of employment without cause, he was eligible to receive a severance payment equal to the sum of: (i) 18 times the Mr. Cosby's monthly base salary in effect on the termination date, (ii) 18 times the difference between Office Depot's monthly COBRA premium for the type of Office Depot provided group health plan coverage in effect on that date for Mr. Cosby and his active employee charge for such coverage, and (iii) a pro-rata bonus calculated based on actual performance under Office Depot's annual bonus plan for the fiscal year in which the termination occurs. Pursuant to an amendment approved by the Compensation Committee on October 27, 2016, in the event of Mr. Cosby's termination of employment without Cause, he will continue to vest in the portion of his restricted stock units granted in fiscal years 2014, 2015 and 2016 that would otherwise have vested in 2017 and in the portion of his performance share awards granted in fiscal year 2014 and tied to performance for the Company's cumulative 2014-2016 fiscal year period. All applicable performance requirements under these awards will continue to apply.

Mr. Schmidt

Mr. Schmidt's legacy change in control agreement provided that in the event that Mr. Schmidt's employment was terminated by the Company without Cause or initiated by Mr. Schmidt for Good Reason, he was eligible to receive:

- all vested and accrued, but unpaid, salary and benefits earned through the termination date;
- a lump-sum cash severance payment equal to two times the sum of: (x) Mr. Schmidt's annual base salary including any applicable car allowance, and (y) Mr. Schmidt's target annual bonus for the fiscal year in which the date of the termination of employment occurs;
- an additional cash payment equal to Mr. Schmidt's prorated target annual bonus amount for the fiscal year in which the date of termination of employment occurs;
- a lump-sum cash payment equal to eighteen times the Company's monthly COBRA premium for the Mr. Schmidt in effect on the date of termination of employment; and
- an executive outplacement services package for a period of 24 months.

TABULAR INFORMATION REGARDING POTENTIAL PAYMENTS UPON TERMINATION OR A CHANGE IN CONTROL

The following tables quantify the potential termination and change in control payment amounts assuming a hypothetical triggering event had occurred under the employment and letter agreements, equity compensation award agreements, and CIC Plan terms applicable to each of Messrs. R. Smith, Hare, Allison and Rice and to Ms. Johansson, and the termination payments that Messrs. Cosby and Schmidt became entitled to according to their respective separation agreements. These tables assume that the change in control or termination of the executive occurred: (i) on December 31, 2016, for Messrs. R. Smith, Hare, Allison and Rice and for Ms. Johansson, and (ii) on the actual termination date for each of Mr. Cosby (November 18, 2016) and Mr. Schmidt (May 27, 2016). The terms and conditions of the post-employment and change in control provisions for each of Messrs. R. Smith, Hare, Allison and Rice and Ms. Johansson are described in detail above. The termination payments paid or payable to Mr. Cosby and Mr. Schmidt on account of their employment terminations in fiscal year 2016 are also described in detail above.

- Represents a lump sum payment equal to the pro-rata bonus, if any, that Mr. Smith would have earned for the year in which his termination occurs based on the actual achievement of applicable performance goals for such year.
- In the event of his separation from service with Office Depot due to death or Disability, Mr. Smith will vest in full in his 2016 Restricted Stock Unit Award on his termination date. For his 2016 AOI Performance Share Award, he will vest based on the earned portion of the award for fiscal year 2016 and the target portions of the award for fiscal years 2017 and 2018, prorated for service performed from the grant date through his separation date. The amount included in the table reflects the number of shares that would vest multiplied by the closing stock price of Office Depot's stock on December 30, 2016 of \$4.52.
- In the event of his separation from service with Office Depot without Cause or for Good Reason within 24 months after the effective date of a change in control, Mr. Smith will vest in full in his 2016 Restricted Stock Unit Award. - Reflects a payment under Mr. Smith's employment agreement dated November 12, 2013 equal to the sum of: (i) two times the sum of Mr. Smith's base salary in effect on December 31, 2016 and Mr. Smith's target annual bonus for the 2016 performance period, (ii) a payment equal to the pro-rata annual bonus for the 2016 performance period based on actual results, and (iii) 18 months of COBRA based on the rate in effect on the date of his termination.
- Reflects a payment under Mr. Smith's employment agreement dated November 12, 2013 equal to the sum of: (i) two times the sum of: Mr. Smith's base salary in effect on December 31, 2016 and Mr. Smith's target annual bonus for the 2016 performance period (or if greater, his target annual bonus for the year immediately preceding the year in which the Change in Control occurs), (ii) a payment equal to the pro-rata annual bonus for the 2016 performance period based on actual results, and (iii) 18 months of COBRA premiums based on the rate in effect on the date of his termination. In the event of a change in control, as defined under Section 280G of the Code, and a termination of Mr. Smith's employment on December 31, 2016, the total payments for Mr. Smith under the foregoing arrangement equal \$19,594,842, including \$10,371,671 for the accelerated vesting of his restricted stock and performance shares. However, these payments are subject to reduction if the parachute amounts associated with the payments under Section 280G of the Code equal or exceed three times Mr. Smith's average taxable compensation received from Office Depot for the five-year period ending December 31, 2015, and if he would receive more on an after-tax basis by reducing the payments than he would receive by getting all the payments and paying the 20% excise tax imposed by Section 4999 of the Code. Under the provisions, the severance payable to Mr. Smith would not be reduced, as his after-tax benefit is higher in the event he receives all severance payments and incurs all applicable income and excise taxes.

However, these payments are subject to reduction if the parachute amounts associated with the payments under Section 280G of the Code equal or exceed three times Mr. Hare's average taxable compensation received from Office Depot for the five-year period ending December 31, 2015, and if he would receive more on an after-tax basis by reducing the payments than he would receive by getting all the payments and paying the 20% excise tax imposed by Section 4999 of the Code. Item 13. Certain Relationships and Related Transactions, and Director Independence.

Related Person Transactions Policy

Our Related Person Transactions Policy (the “Policy”) sets forth the procedures governing the review and approval or ratification of transactions between the Company, on the one hand, and (i) an executive officer; (ii) director; (iii) an immediate family member of an executive officer or director; (iv) any security holder who is known by the Company to own of record or beneficially more than five percent of any class of the Company’s voting securities at the time of the transaction; or (v) an immediate family member of such five percent security holder, on the other hand. Persons in the categories described above are collectively referred to as “related persons.”

This Policy applies to all related person transactions, and under the Policy a “related person transaction” is any transaction:

- In which the Company was or is to be a participant;
- In which the amount exceeds \$120,000; and
- In which any related person has, or will have, a direct or indirect material interest.

No related person transaction shall be approved or ratified if such transaction is contrary to the best interests of the Company. Unless different terms are specifically approved or ratified by the Corporate Governance and Nominating Committee, any approved or ratified transaction must be on terms that are no less favorable to the Company than would be obtained in a similar transaction with an unaffiliated third party under the same or similar circumstances. All related person transactions or series of similar transactions must be presented to the Corporate Governance and Nominating Committee for review and pre-approval or ratification. A copy of the Policy is available for review on the corporate website at investor.officedepot.com under the headings “Corporate Governance/Governance Documents.”

On an annual basis, each Director and Executive Officer is required to complete a questionnaire which requires disclosure of any related person transaction. The Corporate Governance and Nominating Committee reviews any transaction disclosed.

During 2016, all transactions that were potentially subject to the Policy were reviewed and approved or ratified by the Corporate Governance and Nominating Committee.

Director Independence

The Board of Directors believes in the importance of experienced and independent directors. The Board of Directors evaluates the independence of each nominee for election as a director of our Company in accordance with the Corporate Governance Guidelines, which incorporate the applicable listing standards of The Nasdaq Stock Market. The Corporate Governance Guidelines require that a majority of our Board of Directors must be “Independent” within the meaning of the Nasdaq listing standards, and all directors who sit on our Audit Committee, Compensation Committee and Corporate Governance and Nominating Committee, must also be Independent directors.

All members of our Audit Committee, Compensation Committee and Corporate Governance and Nominating Committee have been determined by our Board of Directors to be Independent directors. Our Board of Directors has reviewed the various relationships between members of our Board of Directors and the Company and has affirmatively determined that none of our directors has a material relationship with the Company that would impair independence from management, other than Mr. Gerry Smith, who serves as our CEO and director. Our Board of Directors has concluded that although certain of our directors were appointed by a large shareholder of the Company, a relationship with a shareholder of the Company in and of itself does not impair such directors of independent judgment in connection with their duties and responsibilities as directors of the Company.

None of our directors serves as an executive officer of a charitable organization to which we made contributions during 2016.
